Job Description- Software Developer III (JAVA)

Job Location: 12777 Jones Rd., Ste. 445, Houston, TX 77070

Job Duties:

Advent Global Solutions, Inc. in Houston, TX is seeking Software Developers III (Java) to assist Project Manager to design, develop, test, and implement complex Java software applications. Individuals will apply advanced theoretical and practical knowledge of subject matter principles and concepts, as well as experience designing and developing system applications, to perform the duties of the position. Job duties and responsibilities include:

- Coordinate and oversee the design, development, testing and implementation of Java software applications to enhance new functionalities for the computer application systems considering emerging Java technologies, software and hardware.
- Assist project manager in carrying out complex design and development projects using Java technologies.
- Oversee the development of User Interface (UI) applications.
- Coordinate with functional managers and computer programmers and do analysis of existing computer systems.
- Review and analyze requirements and specifications gathered and documented.
- Perform GAP analysis and review functional specifications as written by developers.
- Prepare system flow charts, training manuals, backup and security systems.
- This position does not supervise any other personnel.
